Up-to-date links to possible reservation URLs for different Siliko plants and warehouses will be published here.

Logistics and E-Technology

By using state-of-the-art digital communication and e-technologies, we achieve a high efficiency both for us and for our partners.

In cooperation with IT experts, we have achieved an extraordinary degree of transparency and flexibility in all processes.

- All business operations of our company are managed by an integrated ERP system
- Timeliness and planning are supported by two systems:
 - ERP (Enterprise Resource Planning), JIT (Just In Time) and
 - MRP (Material Resource Planning)
- The entire process is traceable and transparent
- Over 25.000 systematically ordered shelf spaces
- Electronic data interchange via flexible and secure transport lines (EDI)
 - OFTP, OFTP2, VPN, HTTPS, managed secure e-mail channels, AS2
 - Application of international logistic standards, VDA, XML, RFID, EDIFACT, GTL, 1D and 2D barcodes
- It is possible to book a cargo loading on Vrhnika via the reservation platform:

Arriving at Siliko

Driver entering Siliko warehouse should provide reservation confirmation through which process of loading or unloading will run smooth.

Confirmation can be electronic on phone or printed on paper.

Goals and benefits

- To avoid congestions in loading – unloading processes.
- We value time of drivers so we don't want them to wait to be served.
- We understand that unexpected events can occur in traffic. Anyhow we still believe that majority of bookings can be respected on time booked.
- Drivers with booking will have priority with loading – unloading.

Thank you for your cooperation. We believe that we can do better together.
